Dear Sir,
 I thank you for the P.P. & I am very interested in them. We had a little picnic on the very river to the left of our house & the ground is simply lovely & I do not think I have ever seen such a number of flowers anywhere. The gorge is to a very large one and all grass from the road, a hundred bunches of black grasses are hanging from it; made pieces through water to see them but of course people are only allowed

Yours truly
 F. W.
