it could not be floated back again to the metro-  
politan board was then withdrawn, and the clause was  
not, as it was, the subject of the Bill.  
3 was agreed to.

On clause 4, empowering the board to take land for the  
purpose of establishing deodorizing works, the hon. mem-  
ber for Leicestershire expressed his belief that deodoriz-  
ing works would not only be a failure, but would become a great  
weight to the neighbourhood.

MR. TITE read portions of the evidence of Mr. Wick-  
ham, a civil servant, who stated that the works at Leicester  
were offensive at all, and that in London deodorizing  
machines might be erected in the middle of the street without  
nuisance to the neighbourhood.

MR. SHELLEY said, whenever the committee heard  
of the nuisance on this subject it was always sure to be contradicted  
by somebody else soon afterwards. (Hear.)

But the Board had to insist that wherever the application  
had prevented any nuisance.

MR. CONNINGHAM quoted two eminent chemical autho-  
rities who declared the deodorizing process offensive.

MR. SHELLEY was anxious to move the clause.

On clause 5, empowering the board to appoint a com-  
missioner for the purposes of the works,  
MR. HALL hoped the noble lord would strike out this  
it was much better to leave it to the board to ap-  
point a committee of determining the point to be tried.

MR. S. WORTLEY also thought the clause a very ob-  
noxious one, and hoped the Government would with-  
draw it.

MR. J. MANNERS said, the clause left the amplest dis-  
cretion to the board to appoint a committee, or not, as they  
thought fit.

MR. AYRTON opposed the clause.

MR. SHELLEY hoped the Government would not insist  
on passing the clause.

On a few words from Mr. S. WORTLEY, the clause was  
to be taken, and also the clause up to 5 inclusive.

On clause 6,  
MR. ROUPEL moved the addition of the following pro-  
visions:—“And no such payment of principal or interest shall  
be made by the Government to the Metropolitan Board of  
Health, except upon a certificate of such officers they shall  
think fit, that the works from time to time constructed by  
the Metropolitan Board of Health for the purpose of the  
works, have been in all respects designed and executed  
according to the provisions of the Act, and that the  
works have been so constructed as to prevent any  
such conversation the amendment was nega-  
tively carried.

MR. AKROYD objected to the clause. The evidence of  
the books, the chairman of the Metropolitan Board of  
Health, the Finance Committee, showed that the sewage of  
London could be deodorized within three months at an ex-  
penditure of not more than 200,000. He thought the propo-  
sition to pay 3,000,000, for three years, was quite  
unreasonable, and therefore moved the omission of the  
clause.

MR. WILLIAMS was surprised that the hon. gentleman  
thought the nation incurred any risk by the guarantee  
proposed to give. (Hear.) The annual rental of  
London was 14,000,000, and a three years' annual rental  
of not more than 3,000,000, was not more than the  
rental of the Exchequer in his calculation of 145,000,  
at a very wide margin.

MR. G. A. JAMILLISON said, the hon. member for Hud-  
ersfield was anxious to do as much as it was possible to do  
for the State to lend money or guarantee loans for munici-  
pal purposes, but the fact was that there was scarcely a  
municipality which had not received the aid of the State.  
The hon. member for the Exchequer said that the  
State could run no imaginable risk in giving the terms  
proposed by the Bill, and the only object of it  
was to give 3,000,000, for three years, to the Metro-  
politan Board on easier terms than they otherwise could do. (Hear.)  
It was a large amount of property in this country which  
could only be lent out upon Government securities, and it  
was to enable that money to be lent to the Metropolitan  
Board that the clause was intended. (Hear.)

MR. SHELLEY was anxious to move a division, and  
the amendment was negated without a division, and the  
clause was agreed to. On clause 10, Upon  
clause 11.

MR. HEADLAM proposed to add a proviso: “Provided  
that it shall be lawful for the Metropolitan Board of Health  
to expend a sum not exceeding 10,000, in  
instruments, with a view of determining the most effec-  
tive means for carrying into execution the objects of this  
Act, or for carrying out the provisions of the Act, and the  
Commissioners of the Treasury, and in making any such experiments  
all be lawful for the said board to use the powers  
conferred upon them for the purpose of the Act, and that  
the clause at present stood it would not be lawful for  
the board to apply any portion of the 3,000,000, to any pur-  
pose except the construction of the works, and the  
amount of expenditure and the doubts which existed  
the precise mode in which the object could be attained,  
it was most desirable that the hon. member should be  
able to lay before the House some definite plan of the  
works, and that he should have been evidence given before  
the committee which conclusively proved the necessity for  
the expenditure of the money proposed to be given, and  
that the amendment was negated, and the clause was  
wasted in preliminary experiments, which certainly had  
been without good effects. He thought the proviso  
which he had moved would be of equal benefit in the case  
of the Metropolitan Board.

MR. SHELLEY hoped the committee would not assent  
to the proposition of the hon. and learned gentleman. It  
was a very large sum of money, and he thought it was  
not an experiment which they wished them to do the task they  
had in testing the number of schemes that would be  
of use.

MR. J. MANNERS thought the amendment unnecessary,  
because the Metropolitan Board of Health had been au-  
thorized by the 25th clause of the Metropolitan Board of  
Health Act to expend such sums as might be  
required for the purpose of the works, and the inhabitants during  
construction of the necessary works.

MR. SHELLEY was anxious to move a division, and the  
amendment, which was supported by Mr. BUTLER,  
was negated without a division, and the clause was  
agreed to.

On clause 12, which provides for the appointment of  
inspecting engineers by the Treasury, and gives the engineers  
appointed a right not only to inspect and report on the  
works, but also to be heard by the board, and to inspect the  
works of the Metropolitan Board in relation to those  
works.

MR. H. HALL moved the omission of words, and the  
insertion of the words, the effect of which will be to limit the  
works of the engineers only to inspecting and reporting  
the works.

MR. SHELLEY was anxious to move a division, and the  
amendment was agreed to.

MR. GRIFFITH proposed the addition to the clause  
of the words, “and the Metropolitan Board of Health shall  
be empowered to make such alterations, additions, and  
improvements as may be necessary, and the Metropolitan  
Board of Health shall be empowered to make such alterations,  
additions, and improvements as may be necessary, and the  
Metropolitan Board of Health shall be empowered to make  
such alterations, additions, and improvements as may be  
necessary, and the Metropolitan Board of Health shall be  
empowered to make such alterations, additions, and im-  
provements as may be necessary, and the Metropolitan
