I was in the streets

Now I am one of the stars

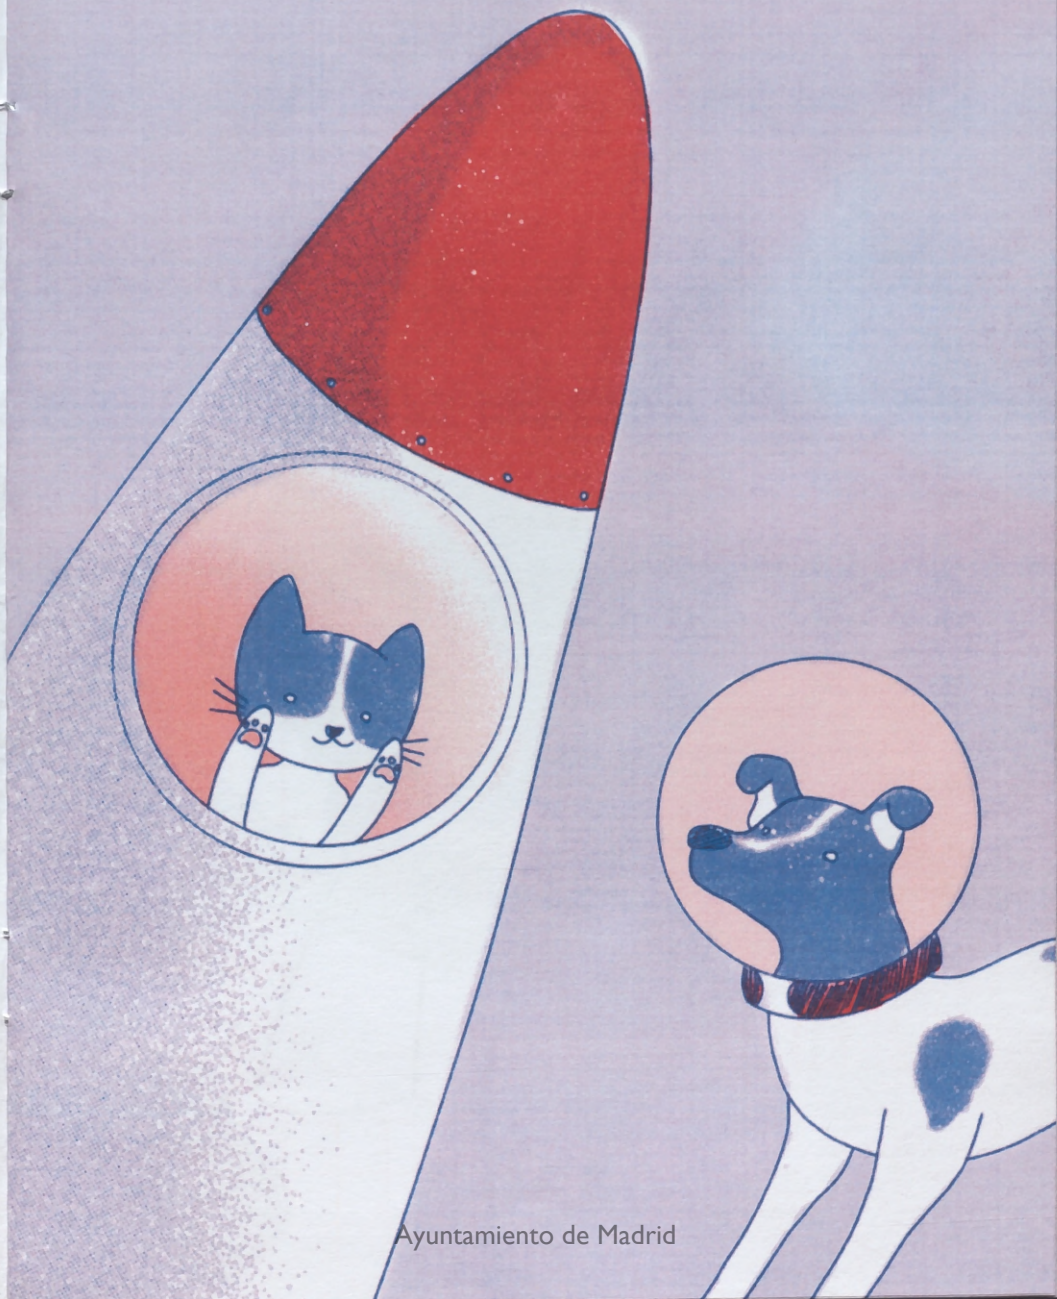

Ayuntamiento de Madrid

I was the first, but not the only one.
some of my friends are with me.

Others had luck and
returned home.

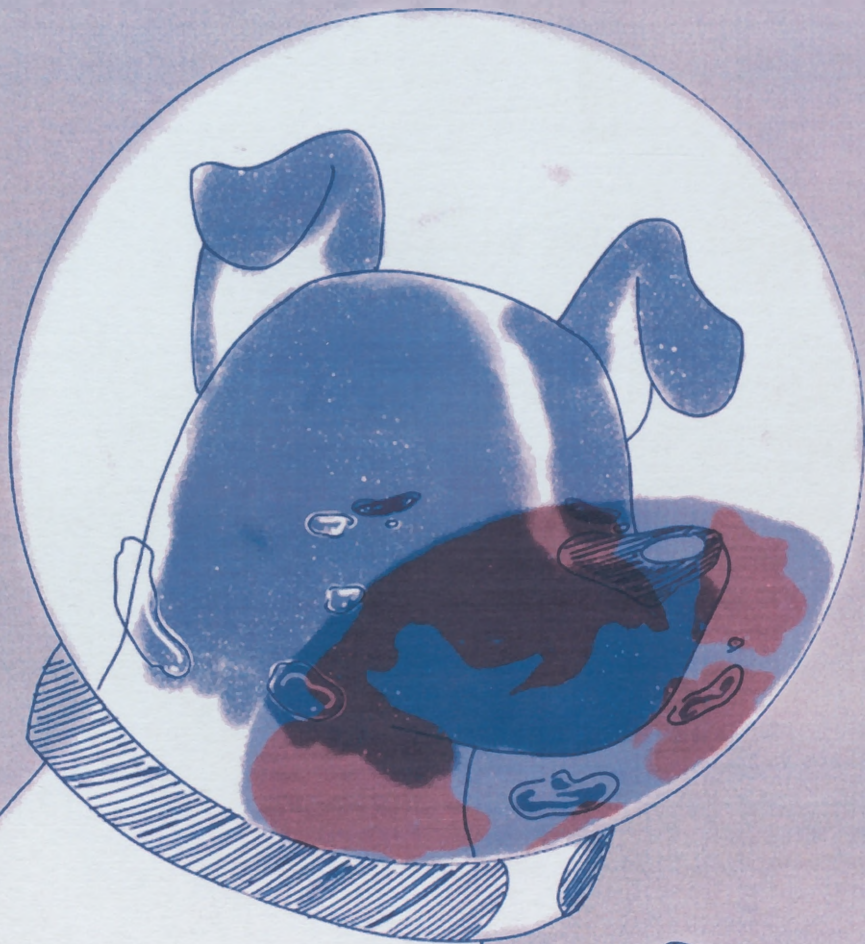

When the lucky ones visited us, they brought the story of my bravery.

Now I know the humans are very
proud of me.

So now I can rest

Forever among the stars.

To my special girl Laika.
You did a great job.
Good girl.
