About me

Hi! Thanks a lot for purchase this artbook! This project started as a personal challenge of doing 31 drawings in 31 days. I must say that I have never finished so much illustrations in such a tiny term. Draw witches and nature has been very fun and it has helped me to keep motivated and continue with this madness. Is always surprising to achieve your goal against all odds.

I forgot to introduce myself!

My name is Miriam, and as a cinephile I started studying audiovisuals even though I always liked to draw. I mixed my passions and I ended into the animation industry. I worked as background colorist in some animated projects and as an animator for Disney TV.

I like to mix animation and illustration in my last projects. In my work I love to create atmospheres with colors and surreal scenes.
